

An Appeal for Muskan Shaikh of Std. IX, student of Bright School who has lost her forearm in Bus mishap where the enjoyment turned into tragedy request for medical help

Muskan is a vivacious girl of Std. IX, studying in Bright School, Vadodara. She is not only a bubbly teenager, but also an intelligent student who holds interest and excels in all co-curricular and extra-curricular activities.

But last year misfortune struck this little heart. On 20th February 2014, accompanied by her classmates, she went on a picnic. On the way back, the bus she was travelling in; overturned. In the mishap, she suffered trans elbow amputation of right upper limb, i.e. her right fore-hand was severed.

Where most other ordinary souls would be depressed and defeated in a similar circumstance, Muskan has dealt with this calamity with great aplomb. Exhibiting amazing resilience, she quickly learnt to carry out various activities, specially writing, using her left hand and not only returned back to school and normal activities, but has also begun to out shine in all her endeavors.

Bright School has been standing by her, throughout her ordeal by putting in its best efforts to aid her, in her attempt to return back to normal, but not to its satisfaction, as WE INTEND THAT THIS LOSS (of limb) DOES NOT REMAIN IRREPAIRABLE, given today's tremendous advancement in the field of medicine.

It has now become our mission to restore near-normally in her life, and therefore.

She has shown great courage to overcome the difficulties She has gone thru.

Bright school invites any sort of aid, information, suggestion or guidance in the matter.
